

FAQ

Q HOW DO YOU HANDLE MY PRIVACY?

Your comfort knowing that your private information is kept confidential is of utmost importance to me. Each project is given a fun title that is provided

A to all suppliers for quoting purposes. The professionals you hire (builder/contractor/trades) and myself will have your personal details to complete the project. I do not share any details without your signature on the design agreement. An NDA may also be signed at your request.

Q WHEN SHOULD I HIRE WHITE WAVE DESIGN?

The sooner the better!!! I prefer to come into the project before the architectural plans have been started. Collaborating with the architect, build team, and consultants we are able to design a dramatic and striking home that's one-of-a-kind and lovingly curated for you.

Q DO YOU SHOP WITH CLIENTS?

Clients hire me to create a work of art that transcends mainstream design.

A I achieve this by having full creative freedom, therefore I don't shop with clients. If you prefer to shop with your designer and have a more hands on approach in the selection process you'll have to decide how important this is to you. Trust is paramount!

Q WILL YOU WORK WITH MY BUILDER OR CONTRACTOR?

Pulling from my little black book of referrals or if you have your own builder or contractor in mind that is something we can discuss. Assembling your team before we sign an agreement provides peace of mind. Your peace of mind but most importantly mine, lol. What I look for in a full-service design & build firm to achieve the level of precision I require to execute a successful project for my discerning clientele: expertise, innovation, and exquisite craftsmanship.

Q HOW MUCH DOES IT COST AND HOW LONG WILL IT TAKE?

Each project will have different requirements but I can tell you that it will cost a *fucking* fortune and it will take FOREVER! You have been warned, lol.

A My design fees for a full-scale renovation or luxury new construction project are seven-figures. Furnishings, finishes, and fixtures are seven to eight-figures including construction. My timeline for designs is a minimum of one year and construction could be three to six+ years.
